

Arts Council – “Memory” Art Show Opening Reception

The Arts Council is approaching its 50th year of operation in the Creston Valley. We have been promoting the arts through theatre, visual arts and cultural events, since 1969 creating history and memory within the Valley.

Memory lends itself perfectly as a subject and tool for art and artists and can take form in a variety of ways; history, sensations, images, and emotions. The concept of memory lends itself perfectly as a tool for the artists to launch ideas within their work.
